

Please amend the general statues to this bill and protect seniors LTC for the future as we age. We may need the care in the future and would not be able to pay out of pocket at this stage if the premiums keep going up! We have limited funds, and we are retired. Most of us have been paying for this benefit for more that 20 years and expect to get what was promised when we started paying into it. I have seen my premium go up every year when the insurance company said it would not go up! We pay them every month. they are making their money. I'm sure they bring in more than they have to pay out over the long haul! Again, please protect our LTC insurance premiums. Thank you for your time.Sincerely,Bruce CovielloNewtown
